PROFILE

I design, build, and ship digital products through thoughtful design and practical engineering. My work spans mobile commerce, product websites, and developer tools.

SELECTED PROJECTS

Hibbullah — Mobile commerce

Pharmacy shopping app with customer and shop-management routes, built with Expo, React Native, and Supabase.

Sifa Pharma — Pharmacy operations

Mobile pharmacy platform covering customer ordering, inventory, stock workflows, and invoices.

Hibbullah Landing — Product website

Responsive product showcase for the Hibbullah Android app, built with React, TypeScript, and Tailwind CSS.

Visqode.nvim — Developer tools

Configurable Neovim theme family written in Lua, with dark, rose, cyan, and violet variants.

TECHNOLOGIES

React · Next.js · TypeScript · Expo · React Native · Supabase · Lua · Tailwind CSS
